

## Egress

Egress provides human layer security – helping users receive, manage and share sensitive data to meet compliance requirements and drive business productivity. Using contextual machine learning, Egress ensures information is protected relative to the risk of a data breach and reduces user friction to ensure smooth adoption.

Trusted by enterprise organisations and governments around the globe, Egress' award-winning platform makes sure emails and files are delivered to the correct recipient, encrypts and protects sensitive data, and provides compliance auditing and reporting.

Egress is headquartered in London, with regional offices in the UK, the US, Canada and the Netherlands.
