## Integrity Scotland

Established in 2008, Integrity Scotland is an established IT Cyber Security Specialist with full range of Products and Services.

Integrity Scotland have vast experience in helping organisations assess their business risks associated with cyber threats and security breaches throughout the use of best practice, information security policies, procedures and expert services.

We are totally vendor independent and work with best of breed vendors and manufacturers to provide a complete portfolio of IT Security Products, Consultancy, Professional Services, Training and Support throughout the UK.

Our partners include Deep Secure, Check Point, FireEye, Trend, Forescout, Radware, Carbon Black amongst others.

We are the only Scottish based Deep Secure partner for Content Threat Removal (CTR) which eliminates all document-based malware. Our unique, technology transforms documents and images in real-time and guarantees the only thing sent to the user is 100% safe data.

We provide a comprehensive range of support services, provided by professional engineers trained to the highest standards through vendor accreditation schemes and Authorised Training Centres.
